BINUSHA FERNANDO

• **Address:** Kalutara, Sri Lanka • **Phone Number:** (+94) 76 856 9425

• **Email:** binushafernando2004@gmail.com • **LinkedIn:** Binusha Fernando • **Github:** Binusha0826

PROFESSIONAL PROFILE

Motivated Software Engineering undergraduate with hands-on experience building full-stack web applications using Java, Spring Boot, React, Next.js and TypeScript. Experienced in developing RESTAPIs, integrating AI-powered features, working with databases and deploying responsive web applications. Demonstrates problem-solving skills through individual and team-based projects involving web development, data analysis and algorithm design. Seeking a Full Stack or Software Engineering Internship to contribute to real-world projects, strengthen technical skills and grow as a Software Engineer.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, Python, SQL
- **Backend:** Spring Boot, REST APIs, Maven, OOP, Data Structures and Algorithms
- **Frontend:** React, Next.js, HTML, CSS, Tailwind CSS, Responsive Web Design
- **Databases:** MySQL, SQL
- **AI Integration:** Gemini API, Tavily API, AI Chatbot Integration
- **Tools & Technologies:** Git, GitHub, VS Code, IntelliJ IDEA
- **Core Skills:** Problem-Solving, Debugging, Teamwork, Adaptability, Continuous Learning

ACADEMIC & SOFTWARE PROJECTS

HealthCheck 3D — AI-Powered Health & Wellness Web Application

Java | Spring Boot | REST API | Gemini API | HTML | CSS | JavaScript

Developed a responsive health and wellness web application featuring BMI calculation, personalized wellness recommendations, health awareness content, and an AI-powered chatbot using the Gemini API. Built a Spring Boot REST backend and deployed the application as a live web application.

GitHub: https://github.com/Binusha0826/HealthCheck-3D | **Live Demo:** https://healthcheck3d.velixir.run/

AutoSpec AI | AI-Powered Automotive Web Application

Next.js | React | TypeScript | Tailwind CSS | Tavily API | Vercel

AutoSpec AI is a modern automotive web application built with Next.js, React, TypeScript, and Tailwind CSS. It features interactive car discovery, vehicle specifications, AI-assisted chat, and vehicle valuation functionality, with a premium responsive interface. Deployed on Vercel with GitHub integration.

GitHub: https://github.com/Binusha0826/AutoSpec-AI | Live Demo: https://autospec-ai-web.vercel.app/

Sri Lanka Tourism and Weather Explorer

Python | Streamlit | Pandas | Plotly | REST APIs

Built a data-driven web application that compares 7-day weather forecasts for 10 popular Sri Lankan destinations using the Open-Meteo API. Created a data pipeline with Pandas, a 0-100 travel score to rank destinations and an interactive map and charts with Plotly. Added caching and retry handling for API rate limits, pre-computed historical climate data for faster loading and deployed the app on Streamlit Community Cloud.

GitHub: https://github.com/Binusha0826/sl-tourism explorer | Live Demo: https://sl-weather-prediction.streamlit.app/

Emergency Blood Matching & Route Optimization Tool

Java | Data Structures | Graph | Dijkstra's Algorithm | Android

Implemented the graph-based donor matching and route optimization module in a team project for the Data Structures module. Applied Dijkstra's shortest path algorithm to find nearby compatible donors and blood banks while minimizing travel distance, and contributed to the emergency request and donor matching workflows.

GitHub: https://github.com/Sithumini-Anuhansi/Emergency-Blood-Matching-Tool

EDUCATION

BSc (Hons) in Software Engineering *2024 - Present*
National Institute of Business Management (NIBM - Sri Lanka)

Course in Computer Office Application *Mar 2021 - Dec 2021*
Kalutara Zonal Computer Resource Center - Sri Lanka

Comprehensive Certificate Course in Spoken English *Mar 2024 - Dec 2024*
Oxbridge College - Sri Lanka

Certificate Course in CMB Upper Secondary *Mar 2021 - Apr 2021*
British Council - Sri Lanka

G.C.E. Advanced Level Examination | Physical Science Stream *2023*

G.C.E. Ordinary Level Examination *2020*

CERTIFICATIONS

Introduction to Artificial Intelligence *Oct 2026*
Simplilearn

Problem Solving (Basic) *Oct 2026*
HackerRank

Introduction to Generative AI *Oct 2026*
Simplilearn

SQL (Basic) *Oct 2026*
HackerRank

ACHIEVEMENTS

Top 30 – MVP Stage | AITHON 2026 – Hemas Aithon

Recognized among the **Top 30** teams at the MVP Stage of AITHON 2026, as a member of Team Byte Hunters, for demonstrating technical feasibility and advancement toward MVP development.

Phoenix 2026 – Robotics & IoT Competition and Exhibition

Participated in Phoenix 2026 **Robotics** & **IoT** Competition and Exhibition by presenting **Milk Guard**, an IoT-based milk quality monitoring project.

PROFESSIONAL MEMBERSHIPS

IEEE — Student Member *2026 - Present*
IEEE Student Branch of NIBM
